

**EasyData offers a time efficient and cost effective solution for your needs**

### **Data Entry Services**

EasyData can receive forms per by mail or fax or can download files from your website. EasyData offers a secure environment and accurate data entry.

EasyData can work with you to develop a survey or tool that suits your needs or can use existing instruments as required.

EasyData will provide quick, obligation-free quotes on all aspects of your job.

### **Survey Design and Research**

EasyData (trading as EasyMark) has extensive experience with conducting a wide range of research projects for **Business** and **Education**. We specialize in questionnaire surveys and attitude measures. Large and small.

We have designed methods of gathering and analysing the data that save you money and time.

**For Business** we have conducted surveys about:

- Staff attitudes
- Further training needs
- Employee job satisfaction

**For Schools and other Educational institutions** we have conducted surveys about:

- Parent and student attitude to the school
- Parent and community values and priorities
- Directions for new or renewing schools
- Specific program success rates
- Student self-esteem
- Bullying

We design the questionnaire to suit your needs, and then do all the steps needed to present you with a report that gives you the information you need.

We are able to offer much lower prices because we can automate many of the steps.
